USES THEREOF

Attorney Docket No.: 9632-005

**STATEMENT OF ATTORNEYS FOR APPLICANTS REGARDING  
PERMANENCE AND AVAILABILITY OF DEPOSITED MICROORGANISMS**

Assistant Commissioner for Patents  
Washington, DC 20231

Sir:

We, attorneys for the Applicants in the above-captioned application, declare

and state:

1. That we represent the Applicants and Seattle Genetics, Inc., the latter having a place of business at 22215 26th Avenue SE, Bothell, Washington 98021, and being present assignee of the application.

2. That hybridoma S2C6, secreting native monoclonal antibody S2C6, was deposited with the American Type Culture Collection (ATCC), at 10801 University Boulevard, Manassas, Virginia 20110-2209, on May 25, 1999, in compliance with the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure on behalf of the Applicants and Seattle Genetics, Inc. The deposited hybridoma was assigned ATCC accession number PTA-110.

3. We hereby assure the United States Patent and Trademark Office and the public that (a) all restrictions on the availability to the public of the hybridoma referred to in

paragraph 2 will be irrevocably removed upon issuance of a United States patent making reference to the hybridoma; (b) the hybridoma will be maintained for a period of at least five years after the most recent request for the furnishing of a sample of the deposited hybridoma was received by the ATCC and, in any case for a period of at least 30 years after the date of deposit; (c) should the deposit become non-viable it will be replaced by the Applicants; and (d) access to the hybridoma will be available to the Commissioner during the pendency of the patent application or to one determined by the Commissioner to be entitled to the hybridoma under 37 C.F.R. § 1.14 and 35 U.S.C. § 122.

Date: April 18, 2001

Respectfully submitted,

Adriane M. Antler 32,605

BUDAPEST TREATY ON THE INTERNATIONAL RECOGNITION OF  
THE DEPOSIT OF MICROORGANISMS FOR THE PURPOSES OF PATENT PROCEDURE

**INTERNATIONAL FORM**

RECEIPT IN THE CASE OF AN ORIGINAL DEPOSIT ISSUED PURSUANT TO RULE 7.3  
AND VIABILITY STATEMENT ISSUED PURSUANT TO RULE 10.2

To: (Name and Address of Depositor or Attorney)

Seattle Genetics, Inc.  
Attn: Clay B. Siegall, Ph.D.  
22215 26th Avenue S.E., Suite 3000  
Bothell, WA 98021

Deposited on Behalf of: Seattle Genetics, Inc.

Identification Reference by Depositor:

Patent Deposit Designation

PTA-110

Murine hybridoma S2C6

The deposit was accompanied by: \_\_\_ a scientific description \_\_\_ a proposed taxonomic description indicated above.

The deposit was received May 25, 1999 by this International Depository Authority and has been accepted.

AT YOUR REQUEST: X We will inform you of requests for the strain for 30 years.

The strain will be made available if a patent office signatory to the Budapest Treaty certifies one's right to receive, or if a U.S. Patent is issued citing the strain, and ATCC is instructed by the United States Patent & Trademark Office or the depositor to release said strain.

If the culture should die or be destroyed during the effective term of the deposit, it shall be your responsibility to replace it with living culture of the same.

The strain will be maintained for a period of at least 30 years from date of deposit, or five years after the most recent request for a sample, whichever is longer. The United States and many other countries are signatory to the Budapest Treaty.

The viability of the culture cited above was tested June 3, 1999. On that date, the culture was viable.

International Depository Authority: American Type Culture Collection, Manassas, VA 20110-2209 USA.

Signature of person having authority to represent ATCC:
